

THE P.A.C.E. PROJECT

Sandy Thomas – Education Director

International Conference on Secondary Education

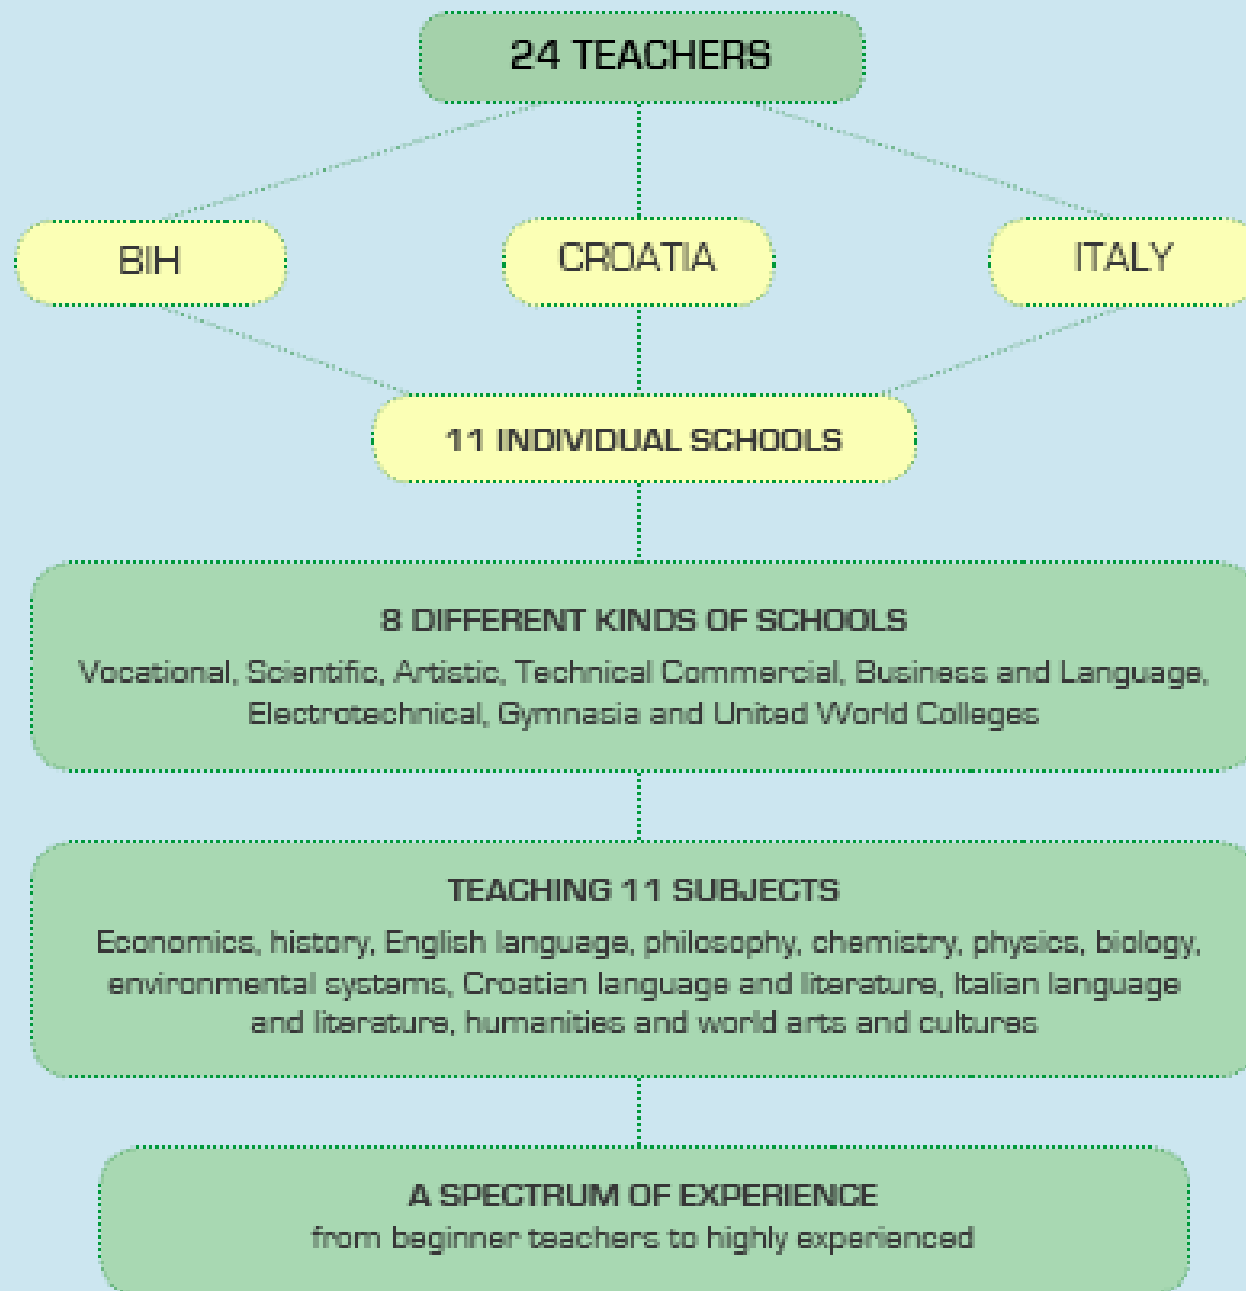

Duino, 16 April, 2008

THE PROJECT VISION

“To harness the potential of education as an instrument of reconciliation in post conflict societies facing challenges of social and cultural change in the Adriatic region”

“ We live in a time of vast changes.....
entailing the power of science and
technology and the inexorability of
globalisation. These changes call for new
educational forms and processes.
The minds of learners must be fashioned
and stretched in ways that have not
been as crucial ... until now.”

- Multiple Perspectives and Critical Thinking
- Professional Development in Workshops
- The Development of the Virtual Working Space for Teachers
- The piloting of innovative methods and lesson materials in a variety of schools
- The results of the pilot.

The project managers will speak about:

- Diffusion plans in which the PACE teachers will continue to play a key role.

“This kind of project wakes teachers up..... It gives an opportunity for enthusiasm to be renewed.”

“By teaching in this way you always try to improve as a teacher. With traditional methods and curriculum structures you get stuck” in the cycle and “repetition leads to boredom and frustration”.
