

Agency for Cooperation in Secondary Education

***Why** do we need it*

***What** is it about*

***How** you could get involved*

One of the problems of projects like PACE is that

THEY END ...!!!

Innovation cannot be brought in one term!

*The risk is that in schools there are too many projects
and too little focus on a constant process of **i**nnovation
and **q**uality improvement.*

How to:

- continue collaboration and exchange among teachers on a regular basis?*
- spread innovation in our schools / regions?*
- mainstream PACE results to decision makers?*

*The instrument to make
cooperation constant*

Agency for **C**ooperation
in **S**econdary **E**ducation

Is the outcome of PACE

Is a new entity that

- *promotes the status and recognition of the teaching profession across countries;*
- *promotes innovation in secondary education*
- *organizes professional development opportunities for teachers (continuation and enlargement of PACE)*

-

-

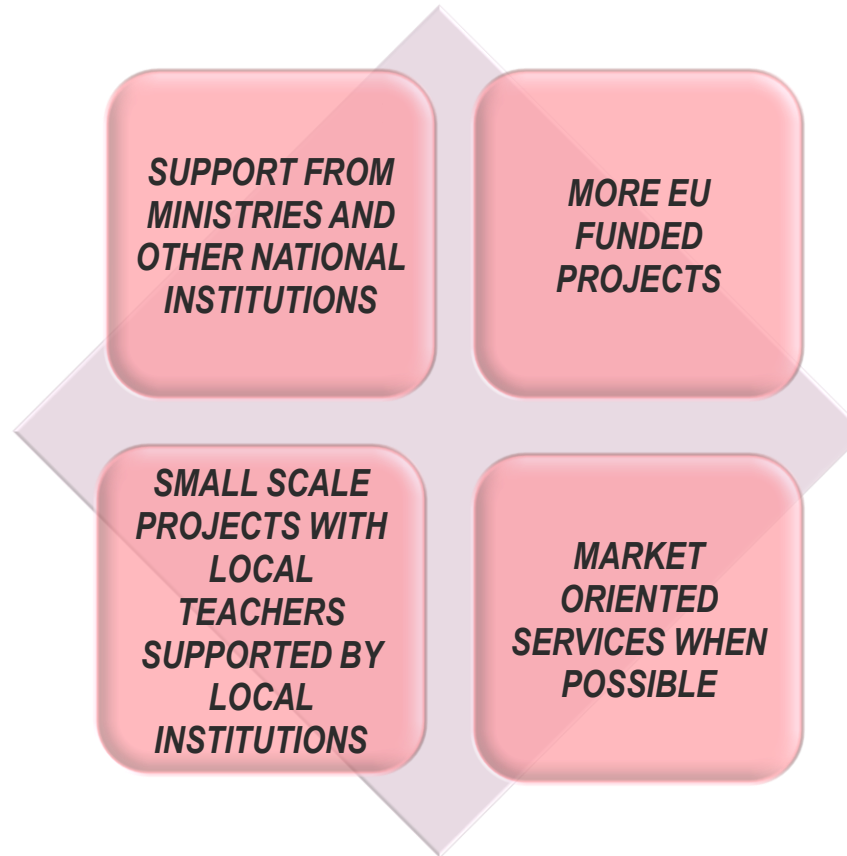

The Agency Goals

- “ foster cooperation among different secondary education systems;*
- “ define and diffuse a new role for the teachers;*
- “ provide professional development opportunities for secondary school teachers;*
- “ broaden curricula through intercultural approaches;*

These goals will be met by:

- “ organizing networks at grass roots and at ministerial level;*
- “ organizing workshops for professional development;*
- “ promoting and disseminating best practices in secondary education, also through the setting-up of on-line communities of teachers and students;*
- “ providing and disseminating teaching materials;*
- “ providing services and specialist advisers for policy makers in the field of secondary education*

HOW?

WHAT CAN YOU DO?

SUPPORT FROM MINISTRIES AND OTHER NATIONAL INSTITUTIONS

Event of the 16° of April

Involve Ministries and eminent personalities

One teacher and one student from each country at least

Students' document

Presentation of PACE results

See program

Network of schools which are members of the Agency

Important in order to seek contribution and real opportunity to bring innovation in some schools

See membership form

MORE EU FUNDED PROJECTS

Partnership for new project proposals

SMALL SCALE PROJECTS WITH LOCAL TEACHERS SUPPORTED BY LOCAL INSTITUTIONS

Continue collaboration via the Agency

Continue inventing and piloting material

Continue uploading material on the platform

Continue having exchanges with other teachers

Get involved in diffusion seminars to be organized at least in each country

Start small scale projects of innovation in your school with support from the Agency (ie. Sezioni sperimentali in Italy) – in the long run there might be the possibility to become UWC associated schools

Contribute to the Agency web site

MARKET ORIENTED SERVICES WHEN POSSIBLE

Still to be discussed in detail

Get involved in researches, training activities and other possible activity developed by the Agency

So....not

Good bye

but..

See you soon
